

PRIMARY PROGRESSIVE APHASIA CARE PARTNER GROUP

This 10-session group is for family members who actively support individuals living with primary progressive aphasia (PPA) or primary progressive apraxia of speech (PPAOS). Spouses, siblings, and adult children are all welcome. The goal of this group is to find community with others with similar experiences. The group provides support, with opportunities to problem-solve challenges and learn from one another's experiences.

This group is facilitated by speech-language pathologist Lyssa Rome, who has experience working with individuals with PPA/PPAOS and their families.
